

N Female to BNC Female Bulkhead Adapter

RF Adapters Technical Data Sheet

PE9261

Configuration

- N Female Connector 1
- BNC Female Connector 2
- 50 Ohms
- Straight Body Geometry
- Bulkhead Mount Method

Features

- Gold Plated Brass Contact

Applications

- Allows Connection Between Series
- General Purpose Test
- Rack Mounted Equipment

Description

Pasternack's PE9261 type N female to BNC female bulkhead adapter is part of our full line of RF components available for same-day shipping. Our type N to BNC adapter has a female to female gender configuration. This RF type N to BNC bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Size

Length	1.77 in [44.96 mm]
Width	0.866 in [22 mm]
Weight	0.116 lbs [52.62 g]

Description	Connector 1	Connector 2
Type	N Female	BNC Female
Polarity	Standard	Standard

Material Specifications

Description	Connector 1		Connector 2
